Building Task Cards: Spider Webs

www.preschoolsteam.com

Building Task Cards

How to Use:

1. Print out page 3 on heavy weight or card stock paper
2. Cut out each individual card and laminate for extra durability.
3. Display! *Punch a hole in each card and display on a key ring or hang up the cards within your block center or building area.*

About Me

Hi, I am Jamie.

Mom of 3 young thinkers ages 6,4, and almost 2.

I have seven years of experience teaching art to children in preschool to 12th grade,

My passion is to show how you can inspire and encourage your students' creativity through hands on learning and problem solving.

You do not need to be an artist, scientist or mathematician to make learning fun and engaging for your students.

With three young children myself, I know how busy life gets .

I've done the work for you of selecting simple STEAM activities that do not require fancy or expensive materials., making it easy for you to incorporate STEAM activities in the classroom.

JOIN THE COMMUNITY

The Preschool STEAM community is a monthly or annual membership to our exclusive STEAM activities to engage and challenge your young thinkers.

Using my seven years of experience teaching art to children I've done the work for you of selecting simple activities that do not require fancy or expensive art materials.

Save your self time from having to spend hours searching for the right activity by joining our membership community.
